Viral-Booster

A platform that unites the interests of everyone!

Viral-Booster is a platform that provides you with high-quality advertising and revenue-generating opportunities. Viral-Booster can really bring you a constant profit up to level 10.

To date, no company can do without advertising campaigns. Any product, any service needs advertising, as without it there will be no inflow of new clients. That is why the advertising industry is one of the most profitable niches in the global segment.

Having extensive experience in the advertising industry, we decided to combine it with a unique marketing and a unique affiliate program. This is what makes the business attractive and unique, and gives it enormous results.

Our task is to create an inflow, as well as a cycle of money for our participants. This is how we have developed one of the simplest and most popular products with a unique marketing and affiliate program from the ternary matrix and classic linear reward program.

We have also added passive income opportunity and equity participation to our platform.

START WITHOUT INVESTMENT

We pay a reward for each new partner who will subscribe to several of our channels immediately after registration and thus will receive the "active" status.

We pay \$0.10 up to the tenth level in depth for each partner referred this way.

For those who start working without investments, only the first 5 levels in depth are available.

To access up to level 10, you need to purchase at least 1 banner space.

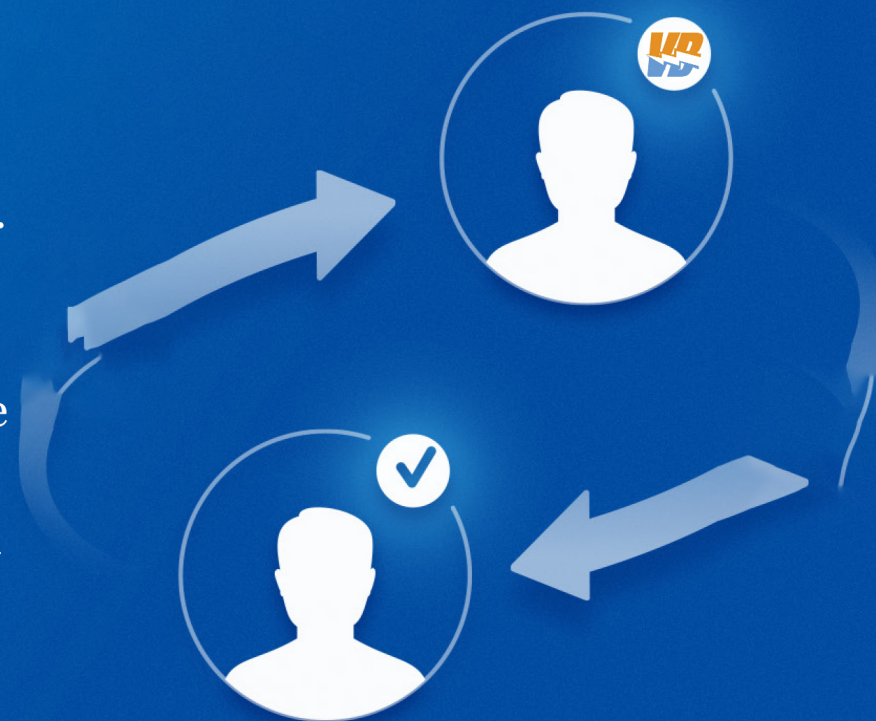

Advertising + Earnings in the Matrix

After free registration, each user has the opportunity to buy one or more advertising space.

Each advertising space activates a new matrix platform consisting of 5 tables, each of which has 13 seats, and takes a position at the very top of the **matrix**.

After the other 12 places are occupied by other users, you receive the payment and automatically move to the second table.

When you close each table, you receive a financial reward.

Earnings in the Matrix

The uniqueness of our platform is that you no longer have to worry about the constant flow of new partners. Our program is designed in such a way that all empty seats in the matrices are automatically filled with our clones due to the existing participants.

Each time a user renews their advertising space for a further period, they pay \$20 again. But in this case, the part of the funds assigned for the matrix, is sent to the pool to buy clones. All free spaces in the common matrix will be filled with these clones.

Let's imagine what it could look like in practice.

User "X" has its own business that needs constant advertising. To advertise their business, they buy one advertising space for a month from us. This way they become our member and automatically activate one matrix platform. After the end of the advertising campaign, the user, as a rule, renews this advertising campaign for an additional/further term. Each time they buy the renewal of the advertising space for the following term, the new clone is created. This clone is looking for the next free space available to fill it via spillover. In other words, if user "X" has purchased 3 advertising spaces and renews them every month for the year, this way 36 clones will be created and 36 free spaces will be closed.

Based on our experience, on average, one advertiser orders from 3 to 7 advertising spaces.

HOW THE MATRIX PROGRAM WORKS

Each purchased \$20 advertising space activates one matrix platform.

Matrix platform consists of 5 tables. Each table has 13 seats.

When you activate the platform you take a place at the top of the first table.

Tables are filled according to the following principle: **Top-Bottom, Left-right.**

	▲	▲	▲	▲	▲
ENTRY	\$20,00	\$95,00	\$305,00	\$1.450,00	\$5.500,00
IN THE MATRIX.	\$15,00	\$45,00	\$200,00	\$1.000,00	\$3.000,00
IN THE LINEUP	\$5,00	\$50,00	\$105,00	\$450,00	\$2.500,00
GET OUT	\$135,00	\$405,00	\$1.800,00	\$9.000,00	\$27.000,00
PAYOUT	<u>\$40,00</u>	<u>\$100,00</u>	<u>\$350,00</u>	<u>\$3.500,00</u>	<u>\$27.000,00</u>

THE MATRIX PROGRAM

First table:

When the first table is filled, you earn \$135. Of that, \$40 will be credited to your balance and will be immediately available for withdrawal. \$45 goes for the activation of the next table. And the remaining \$50 will be sent to the line marketing affiliate program.

Second table:

When the second table is filled, you earn \$405. Of that, \$100 will be credited to your balance and will be immediately available for withdrawal. \$200 goes for the activation of the next table. And the remaining \$105 is sent to the line marketing affiliate program.

Table three:

When the third table is filled, you earn \$1,800. Of that, \$350 will be credited to your balance and will be immediately available for withdrawal. \$1,000 goes for the activation of the next table. And the remaining \$450 is sent to the line marketing affiliate program.

THE MATRIX PROGRAM

Table four:

When the fourth table is filled, you earn \$9,000. Of that, \$3,500 will be credited to your balance and will be immediately available for withdrawal. \$3,000 goes for the activation of the next table. And the remaining \$2,500 is sent to the line marketing affiliate program.

Table five:

When table five is filled, you earn \$27,000. Since this is the last table, all the \$27,000 you earned will be credited to your balance and will be immediately available for withdrawal.

LINE MARKETING

It's a classic version of the affiliate program. It allows you to earn both from the matrix and any product on our platform. Here you will receive 20% of the amount allocated for line marketing for the purchases made by each personally invited partner. As well as 8% of the amount allocated for the line marketing up to **level 10**.

For those who start working without investments, only the first 5 levels in depth are available. To access up to level 10, you need to purchase at least **1 banner space**.

The amount allocated to linear marketing:

Matrix -

- 1. Table = \$5,
- 2. Table = \$50,
- 3. Table = \$105,
- 4. Table = \$450,
- 5. Table = \$2500,

50% of the rest of the sales on the platform is allocated to linear marketing of the sales amount.
